

NASHVILLE PARKS FOUNDATION

Who we are: NPF is the nonprofit partner to Metro Parks & Recreation supporting 178 parks and 27 community centers. We enhance the public parks, promote the sustainable growth of the park system and expand recreational opportunities in Davidson County.

What we do: Nashville Parks Foundation promotes wellness by providing green space and open play, learning by funding performing arts, nature centers, and after-school programs, connection for neighbors to form vibrant communities, and economic benefit by attracting a workforce who values a high quality of living in Nashville.

Why we're important: As Nashville continues to expand, we ensure that parks are able to provide nature and recreation for every neighborhood. Our vision is that every resident has a 10 minute walk to a park. (We invest in the city's park system so that open space continues to be included in an ever-changing metro area.)

How we serve the community: We deliver successful projects when creating partnerships with businesses and organizations. Collaboration between public and private resources improves Nashville parks and community centers while contributing to a robust local economy.

How you can help: Be the force behind a city abundant with nature and recreation!

Businesses can create an impactful connection to customers and employees with a park project that improves quality of life and generates economic growth. Target a specific neighborhood or a city-wide initiative.

Individuals and Foundations can leave a long-lasting investment in the community by presenting an idea for a new project or helping with a current initiative. Determine what best aligns with your personal philanthropy.

Let's have a conversation. Donor opportunities include: health, wellness, education, arts, conservation, preservation, nature, sustainability, equity & inclusion.
